## OUR ASKS

### Why Now:

- Over 1 million Scots are aged 65+ — and youth disengagement is rising.
- Policy responses remain fragmented — ageing, youth, housing, and health still sit in silos.
- Intergenerational practice is one of the most effective, low-cost tools for prevention, wellbeing, and social cohesion.

**Invest in Intergenerational Knowledge, Quality & Sustainability**

**Build Intergenerational Approaches into Policy & Governance**

**Embed Intergenerational Practice into Living, Learning & Workplaces**

Thank you!

**Any question?**
